## Summary

Passionate Frontend Web Developer with experience in building modern, responsive, and user-friendly web applications. Started as an intern and transitioned into a full-time role within the company. Proficient in HTML, CSS, JavaScript, Tailwind CSS, and React.js, with a strong focus on creating clean, efficient, and visually appealing UI/UX designs. Skilled in optimizing web performance, ensuring cross-browser compatibility, and developing interactive user experiences. Continuously learning and staying updated with the latest frontend technologies to build innovative and scalable solutions.

## Experience

### Frontend development Intern – Nextwork Technologies Public Limited Sept 2024 – Feb 2025

- Developed and maintained web applications using HTML, CSS, JavaScript, Tailwind CSS and React, ensuring responsiveness and user-friendly interfaces.
- Built and deployed projects using React.js, focusing on component-based architecture and state management.
- Learned and implemented modern front-end technologies like Tailwind CSS and React.js.

## Projects

### Taskify

Jan 2024 – Feb 2025

- Developed Taskify, a task management web app using React and Tailwind CSS, featuring user authentication with sign-in and sign-up functionality.
- Implemented dynamic task management with options to add, delete, and update tasks, enhancing productivity and user experience.
- Integrated task progress tracking with status categories: In Progress and Completed, ensuring clear workflow visualization.
- Added priority categorization (High, Medium, Low) to efficiently organize and prioritize.

### Doctor Appointment Booking System

Sept 2024 – Jan 2025

- Developed a Doctor Appointment Booking System with user authentication and secure login functionality using React and Tailwind CSS.
- Designed an intuitive home page interface displaying various medical specialists for easy navigation.
- Implemented a dynamic appointment booking feature with time and date slot selection, enhancing scheduling efficiency.
